ABOUT
NTCA

NTCA trains individuals, businesses and community groups. We have been delivering courses for over 22 years.

All NTCA courses cover the latest curriculum, spanning multiple fields. In addition, NTCA consistently monitors industry trends and maintains strong relationships with leading companies.

We offer "Career Master Courses," including Web-Full-Stack, DevOps, Data Analysis among others, tailored to individual needs, to help students fully prepare for the workforce by enhancing both professional skills and personal development, including career readiness and network building.

We are consistently collaborating to provide extended support to all stakeholders and continuously improving to deliver quality service with focus, dedication and balance. We don't wait to get perfect but deliver outstanding outcomes in all we do.

We are committed to provide extended support to achieve success by practicing individual discipline, having strong focus on goals, abiding by our core values and showing continuous improvement in all work areas.

https://www.ntca.edu.au/

Our Vision - To be the COLLEGE OF CHOICE in Australia

Our Mission - We are a leading VET and Corporate Training Provider

Our Values - We will achieve our vision by consistently acting according to our values: Innovative, Partnerships, Excellence, Dedicated

We are always looking for a better way to get the job done. We facilitate a creative and practical learning environment, which inspires continuous improvement in everything we do.

We nurture & build trusted relationships within our organisation, fostering teamwork and knowledge sharing. We engage wholeheartedly with all our external stakeholders to provide mutual value, support & growth. We collaborate openly & always deliver Win / Win outcomes.

KICKSTART YOUR FIRST AUSTRALIAN JOB IN JUST 3 MONTHS

In just a short span of three months, you can launch your very first job in Australia! Especially in fields like consulting, Internet, banking, mining, government, healthcare, education, there's a high demand for skilled professionals.

Starting with IT and business training courses, NTCA has access to a job-seeking platform in Australia, that successfully has helped over 4,000 students secure job offers. From training to interview guidance, we can provide comprehensive support to successfully embark students on their professional journey in Australia!

INTENSIVE LEARNING

Internship Experience
Bootcamp plus internships. At the NTCA, students work through our partner companies to gain real-world work experience.

Job Referrals
In collaboration with a team of industry partners, we explore the vast market demand and aspirations. Through referrals by officials from renowned companies, candidates are directly recommended to international enterprises that match their professional skills.

Bootcamp
Our bootcamps cover everything from industry entry to securing job offers and even advanced career advancement courses. The curriculum mainly focuses on the IT industry, including Web development, DevOps, Data, and AI sectors.

Interview Guidance
Personalized job-seeking guidance including resume revision, interview coaching, mock interviews, career planning, and career consulting. Our approach is targeted and adapted to individual needs, ensuring a more effective and personalized learning experience.

UNLOCK YOUR POTENTIAL

Aligned With Corporate Hiring Demands
Established for 20+ years, our courses are continuously evolving and updating.

Real-World Project Experiences
Students from various courses collaborate in teams on commercial projects, gaining commercial experience.

Trusted By Students
Trusted by students with a 96% satisfaction rate.

Top-Tier Instructors
Our trainers are active industry professionals with working experiences.

Job Referral Opportunities
Upon completion, students can be referred to job opportunities through NTCA's channels and partners.

With NTCA, you can receive guidance from tutors or mentors, gaining a deeper and more comprehensive understanding of the course content. By participating in relevant project collaborations, we gain real-world experience in a production environment. Career coaching provides information on the job market, internship opportunities, and guides us in setting clear career goals.
